

PLAY

By April Foster

HEYDAY
COLLECTION

STEP 01

Lay Hexagon Mask on cardstock and lightly spray. Here, I used about 5-6 sprays from about 12-18" away, layering until I got the desired color.

STEP 02

Using a Craft Knife & self-healing mat, cut on the inside of a few hexagons at random.

STEP 03

Turn Cardstock to back side. Cut squares of patterned paper from 6x6" paper pad, slightly larger than the hexagons. Adhere and allow to dry.

STEP 04

After drying, turn cardstock to the front.

STEP 05

Add glossy accents to the border of each hexagon to accentuate the shape and add texture.
